

# creating caring kids

at Edgar's Mission - teaching kindness through example, education and outreach.

Edgar's Mission introduces its new **Humane Education Program** called **Joining the Dots**. Edgar's mission farm sanctuary provides a unique learning environment on its 60 peaceable acres in Willowmavin (via Kilmore) just 1 hour north of the Melbourne CBD.

Critical thinking activities together with factual information and animal interaction are the cornerstone of our learning experiences. In a lively, non-judgmental and positive atmosphere **Joining the Dots** aims to inspire and empower students to increase their empathy and respect for animals, for each other and for the planet.

Always **age appropriate**, our activities meet learning objectives in the areas of **language, media studies, creative arts, ethics, biology** and **animal behaviour**.

- Suitable for primary and secondary students
- A fun and educational day out for children and young adults

We guarantee that **everyone** will learn something at the mission.

Did you know that sheep can recognize photographs of as many as 50 different people and sheep, even if they haven't seen them in 2 years! (Do you still think all sheep look alike?)

Or that roosters can count up to 13?

Teachers, if you are interested, we can provide you with support materials prior to your visit to help prepare your students for a full day of fun and learning!

Also meet the stars of *Charlotte's Web*! Edgar's Mission is home to Alice Pig, Lily Pig and Daisy Pig who all starred in the hit movie.

Should you wish to arrange a school visit at Edgar's Mission, or would like to enquire further about the *Joining the Dots* program, please contact Edgar's Mission's founder and director, Pam Ahern.
